1-VoIP Builds a Competitive Edge for Medical Professionals

1-VoIP provides enhanced telecom services for the unique requirements of medical facilities. These services exceed the capabilities of traditional premised PBX systems without the high touch management overhead and technology risks. With 1-VoIP, medical offices can improve patient satisfaction, streamline operations, and increase staff flexibility. 1-VoIP plans the most versatile and effective feature rich voice features that integrate with one office, multiple sites and staff members on the go.

Build on 1-VoIP's Solid Foundation of Features

As an often-mobile medical professional, being immediately accessible by your nurses, patients, pharmacists, suppliers and medical first responders is crucial. Introducing 1-VoIP, we provide a powerful Unified Communication solution that allows employees to make and receive calls from

any location, at any time with the most robust and feature rich voice services. You can choose to use a fixed phone, cell phone or soft phones with only one number, one dial plan, and one voice mailbox plus a unified set of features across all devices further, 1-VoIP allows you to seamlessly move calls between devices. If you need to leave your office, just move the call from your desk phone to your mobile phone without hesitation.

Breakthrough in VoIP Technology

1-VoIP is a powerful tool for hospitals and medical offices with multiple locations, employees who move from site to site or are highly mobile. Its part of our converged voice and data services, which consolidates your communication network, increases employee productivity, reduces your costs, and basically just makes your life a whole lot simpler. And, with our enterprise-grade quality of service (QoS) and managed IP network services, you are assured of the most reliable communication solution available anywhere today.

A+ CUSTOMER FEEDBACK

Rollye James (XM Radio Host)

"...For us, quality is everything, and in over two years we have had not one complaint. Accounting loves it too—the bills are miniscule compared to the past. I'd recommend them in any configuration, and their customer service is terrific! They're more than a supplier, to us they're a resource."

Jim Mueller says

"... I wanted to let you know I have always enjoyed working with you and VYL Media. I found you and your company to be very professional yet friendly which is a nice combination."

Ravinder Sanini says

" Excellent service!! Great tech support unlike some of the other voip providers where you are on hold for 2 hours. Highly recommended. A+++++++" - Ravinder Saini"

Larry Larraga says

"...The pricing vs. service at VYLmedia is outstanding. ..."

One Number Rings All Your Phones

Never miss another call...unless you want to. Calls to your one number ring all your devices simultaneously so you can answer from whichever is most convenient. Or you can select find-me follow-me to ring each number sequentially.

Unified Messaging with Visual Voicemail

Consolidates voicemails, faxes and emails either visually or audio presented in your email inbox. Plus, it's all remotely, securely accessible from any phone, Web device, or PDA.

Simple Conferencing

Easily "click-to-connect" up to unlimited conferencing participants on-the-fly without a conference deck—right from your Web console.

Custom Call Control

You control how and when you are reachable. Select certain calls to come through to you directly while all others are diverted. Select the numbers you wish to hear from at certain times of the day. Access and change all your phone features from your personal Web console. Plus over 40 more amazing calling features such Custom Ring-back Tones, Simple Toolbar, and Auto Attendant.
